

Show the pupils the slide show and use the information on the slideshow and below to talk about the images.

[Download the PowerPoint Slideshow: Global Footprints \(2.77 MB \)](#)

Use this slide show as an opportunity to test their understanding of various issues. Don't reveal the text under the images, instead get them to supply it. Ask them what the images depict, and what are the related issues. For each image, ask them how they are connected to the picture through everyday actions, and importantly what would a solution be.
